## dilo - the tree of a thousand virtues

Known as "the tree of a thousand virtues", the Sacred Dilo tree makes its home on the white coral sands in the pristine Islands of Fiji - drawing its sustenance directly from the nutrient rich warm waters of the Pacific Ocean. It is known to possess a unique capacity to enhance the skins' own repair mechanism, soothe pain and irritations as well as promote the growth of healthy skin. For this reason, dilo oil is widely used as a traditional topical aid in the islands and regarded with much reverence for its healing powers. For centuries, Islanders believed the dilo tree was a sacred gift of nature and that Gods hid in its branches.

Dilo oil is cold pressed and is a pure oil which is readily absorbed through the skin. The molecular structure of this oil remains intact with unique essential fatty acids to help alleviate many dermatological ailments. This amazing oil also naturally contains a unique essential fatty acid found nowhere else in the world - regarded to be responsible for the oil's amazing ability to soothe irritation and inflammation whilst supercharging the healing and repair process.

Soothe, nourish and replenish skin affected by:

Sunburn, windburn, dermatitis, dehydration, rashes, insect bites, acne, eczema, shaving, waxing, and post microdermabrasion. It also helps in alleviating muscle pain from overuse.
